Alternate Point of Contact

Christopher Chin, Deputy Chief
517 Des Plaines Avenue,
Forest Park, IL. 60130-0130
(708) 615-6221
cchin@forestpark.net

Annual Reporting Year: 2021

Background: Cook County and participating municipalities in the county developed a hazard mitigation plan to reduce risk from all hazards by identifying resources, information, and strategies for risk reduction. The federal Disaster Mitigation Act of 2000 requires state and local governments to develop hazard mitigation plans as a condition for federal disaster grant assistance. To prepare the plan, the participating partners organized resources, assessed risks from natural hazards within the county, developed planning goals and objectives, reviewed mitigation alternatives, and developed an action plan to address probable impacts from natural hazards. By completing this process, these jurisdictions maintained compliance with the Disaster Mitigation Act, achieving eligibility for mitigation grant funding opportunities afforded under the Robert T. Stafford Act.

Purpose: The purpose of this report is to provide an annual update on the implementation of the action plan identified in the Cook County Multi-Jurisdictional Hazard Mitigation Plan. The objective is to ensure that there is a continuing and responsive planning process that will keep the Hazard Mitigation Plan dynamic and responsive to the needs and capabilities of the partner jurisdictions. This report discusses the following:

- Natural hazard events that have occurred within the last year
- Changes in risk exposure within the planning area (all of Cook County) Mitigation success stories
- Review of the action plan
- Changes in capabilities that could impact plan implementation
- Recommendations for changes/enhancement.

Hazard Analysis

Hazards that represent a county-wide risk are addressed in the Risk Assessment section of the 2019 Cook County Multi-Jurisdictional Hazard Mitigation Plan Update. This section only addresses the hazards and their associated impacts that are **relevant** and **unique** to the municipality.

Flood: The Village of Forest Park's proximity to the Des Plaines River, together with a combined sewer system has led to Madison and Roosevelt Roads being flooded, putting homeowners at risk. In 2010, very heavy rain fell across much of north central Cook County producing widespread flooding and flash flooding during the early morning hours of July 24th. Hundreds of streets and thousands of basements were flooded. Numerous homes were surrounded by flood waters with water damage on the first floor. Several hundred vehicles were submerged or floating in floodwaters, many were a total loss. Portions of both Interstate 94 and Interstate 290 were closed due to flooding, including Interstate 290 just east of Des Plaines Avenue in Forest Park.

Severe Weather: In 2007, numerous tree limbs were blown down during thunderstorms and excessive wind. Three cars were damaged by falling tree limbs on DesPlaines Avenue.

Winter Storms and Extreme Cold: In preparation for extreme cold and heat events, back up generators are needed (just like they are needed for sewer station)

Natural Hazard Events in 2021

Instructions: Please use the **Edit** Tool to describe new hazard occurrences/incidents from the past year that have impacted your jurisdiction and had a measurable impact on people or property. (Example: A tornado occurred on [Date] and impacted [insert area] and caused damage to [insert damages]). You may also use the Edit Tool to suggest any modifications/improvements to the hazards unique to your community, as described below from the 2019 plan.

Describe 2021 Natural Hazard Events Here: No changes since 2019

Mitigation Strategies and Actions

The heart of the mitigation plan is the mitigation strategy, which serves as the long-term blueprint for reducing the potential losses identified in the risk assessment. The mitigation strategy describes how the community will accomplish the overall purpose, or mission, of the planning process.

New Mitigation Actions

Please submit [here](#)

Ongoing Mitigation Actions

The following are ongoing actions. During the 2019 update, these "ongoing" mitigation actions and projects were modified and/or amended, as needed. Reviewers of this report should refer to the Hazard Mitigation Plan for more detailed descriptions of each action and the prioritization process. Address the following for each mitigation action:

- Was any element of the action carried out during the reporting period?
- If no action was completed, why?
- Is the timeline for implementation or the action still appropriate?
- If the action was completed, does it need to be changed or removed from the action plan?

TABLE: HAZARD MITIGATION ACTION PLAN MATRIX
--

<p style="text-align: center;">Completion status legend: N = New O = Action Ongoing toward Completion C = Project Completed R = Want Removed from Annex X = No Action Taken</p>								
2021 Status	2020 Status	2019 Status	Hazards Mitigated	Objectives Met	Lead Agencies	Estimated Cost	Sources of Funding	Timeline/Projected Completion Date (a)
Action F3.1 —Where appropriate, support retrofitting, purchase, or relocation of structures in hazard-prone areas to prevent future structure damage. Give priority to properties with exposure to repetitive losses.								
Status Description: X								
O		Ongoing	All	7, 13	Village of Forest Park	High	FEMA Hazard Mitigation Grants	Long-term (depending on funding)
Action F3.2 —Continue to support the countywide actions identified in this plan.								
Status Description: X								
O		Ongoing	All	All	Village of Forest Park	Low	General Fund	Short- and Long-term ongoing
Action F3.3 —Actively participate in the plan maintenance strategy identified in this plan.								
Status Description: X								
O		Ongoing	All	3, 4, 6	DHSEM, Village of Forest Park	Low	General Fund	Short-and long term ongoing
Action F3.4 —Consider participation in incentive-based programs such as the Community Rating System, Tree City, and StormReady.								
Status Description: X								
O		Ongoing	All	3, 4, 5, 6, 7, 9, 10, 11, 13	Village of Forest Park	Low	General Fund	Long-term
Action F3.5 —Maintain good standing under the National Flood Insurance Program by implementing programs that meet or exceed the minimum NFIP requirements. Such programs include enforcing an adopted flood damage prevention ordinance, participating in floodplain mapping updates, and providing public assistance and information on floodplain requirements and impacts.								
Status Description: X								
O		Ongoing	Flooding	4, 6, 9	Village of Forest Park	High	General Fund	Short-term and Ongoing
Action F3.6 —Where feasible, implement a program to record high water marks following high-water events.								
Status Description: X								
O		Ongoing	Flooding, Severe Weather	3, 6, 9	Village of Forest Park	High	General Fund; FEMA Grant Funds (Public Assistance)	Long-term, short-term and ongoing
Action F3.7 —Integrate the hazard mitigation plan into other plans, programs, or resources that dictate land use or redevelopment.								
Status Description: X								
O		Ongoing	All	3, 4, 6, 10, 13	Burke Engineering	Medium	General Fund	Short-term and ongoing
Action F3.8 —Consider the development and implementation of a Capital Improvements Program (CIP) to increase the Village's regulatory, financial and technical capability to implement mitigation actions.								
Status Description: X								
O		Ongoing	All	1, 2, 7	Public Works	High	CIP component of General Fund (if implemented)	Long-term and ongoing
Action F3.9 —Continue to work on sewer separation and purchase a Generator for Community Center/Cooling Station.								
Status Description: X								
N		New	Flood, Extreme Cold	9, 12	Forest Park	\$4,000,000; High	Village Funds - MWRD	2020
Action F3.10 —Implement South Area Sewer Separation								
Status Description: X								
N		New	Flood	9	MWRD	\$2,800,000	MWRD	TBD
Action F3.11 —Implement Forest Park Green Infrastructure Project								
Status Description: X								
N		New	Flood	13	MWRD	TBD	TBD	TBD

(a) Ongoing indicates continuation of an action that is already in place. Short-term indicates implementation within five years. Long-term indicates implementation after five years.

Mitigation Success Stories: Examples of mitigation success stories include, but are not limited to: received a Grant, completed a major mitigation project, etc.

Future Needs: Examples of future needs include, but are not limited to: receiving training to better understand the mitigation grant application process, studies that may be needed to better understand hazards/risks, etc.
