

6 Maywood 2021 MJ-HMP Jurisdictional Annual Report

Primary Point of Contact

Craig Bronaugh, Fire Chief
700 St. Charles Road
Maywood, IL 60153
Telephone: 708-257-5794
Email Address: cbronaugh@maywoodfire-il.org

Alternate Point of Contact

John West, Director of Public Works
40 Madison St,
Maywood, IL 60153
Telephone: 708-491-8842
Email Address: jwest2@maywood-il.org

Annual Reporting Year: 2021

Background: Cook County and participating municipalities in the county developed a hazard mitigation plan to reduce risk from all hazards by identifying resources, information, and strategies for risk reduction. The federal Disaster Mitigation Act of 2000 requires state and local governments to develop hazard mitigation plans as a condition for federal disaster grant assistance. To prepare the plan, the participating partners organized resources, assessed risks from natural hazards within the county, developed planning goals and objectives, reviewed mitigation alternatives, and developed an action plan to address probable impacts from natural hazards. By completing this process, these jurisdictions maintained compliance with the Disaster Mitigation Act, achieving eligibility for mitigation grant funding opportunities afforded under the Robert T. Stafford Act.

Purpose: The purpose of this report is to provide an annual update on the implementation of the action plan identified in the Cook County Multi-Jurisdictional Hazard Mitigation Plan. The objective is to ensure that there is a continuing and responsive planning process that will keep the Hazard Mitigation Plan dynamic and responsive to the needs and capabilities of the partner jurisdictions. This report discusses the following:

- Natural hazard events that have occurred within the last year
- Changes in risk exposure within the planning area (all of Cook County) Mitigation success stories
- Review of the action plan
- Changes in capabilities that could impact plan implementation
- Recommendations for changes/enhancement.

Hazard Analysis

Hazards that represent a county-wide risk are addressed in the Risk Assessment section of the 2019 Cook County Multi-Jurisdictional Hazard Mitigation Plan Update. This section only addresses the hazards and their associated impacts that are **relevant** and **unique** to the municipality.

Flood: Previously, the Village has experienced flooding in the following areas: Hugh Muir Lane (1st-5th), 17th Avenue Railroad, 9th and Warren (entire intersection), 2nd Avenue Pine, and 13th Ave (N. Maywood Dr. to Harrison). In addition, many impacted areas are dependent on MWRD closing the deep tunnel. In 2014, Flash/Urban flooding occurred leading Interstate 290 to be closed between 17th Avenue and 25th Avenue.

High Winds: High winds have caused large outages throughout the Village. Moreover, in the case that high winds and rainstorms occur simultaneously, properties become flooded.

Tornado: Similar to the impacts of high winds, tornadoes affect power, preventing many flood control measures.

Natural Hazard Events in 2021

Instructions: Please use the **Edit** Tool to describe new hazard occurrences/incidents from the past year that have impacted your jurisdiction and had a measurable impact on people or property. (Example: A tornado occurred on [Date] and impacted [insert area] and caused damage to [insert damages]). You may also use the Edit Tool to suggest any modifications/improvements to the hazards unique to your community, as described below from the 2019 plan.

Describe 2021 Natural Hazard Events Here: [Type Here]

Mitigation Strategies and Actions

The heart of the mitigation plan is the mitigation strategy, which serves as the long-term blueprint for reducing the potential losses identified in the risk assessment. The mitigation strategy describes how the community will accomplish the overall purpose, or mission, of the planning process.

New Mitigation Actions

Please submit [here](#)

Ongoing Mitigation Actions

The following are ongoing actions. During the 2019 update, these "ongoing" mitigation actions and projects were modified and/or amended, as needed. Reviewers of this report should refer to the Hazard Mitigation Plan for more detailed descriptions of each action and the prioritization process. Address the following for each mitigation action:

- Was any element of the action carried out during the reporting period?
- If no action was completed, why?
- Is the timeline for implementation or the action still appropriate?
- If the action was completed, does it need to be changed or removed from the action plan?

TABLE: HAZARD MITIGATION ACTION PLAN MATRIX

Completion status legend:	
N = New	O = Action Ongoing toward Completion
C = Project Completed	R = Want Removed from Annex X = No Action Taken

2021 Status	2020 Status	2019 Status	Hazards Mitigated	Objectives Met	Lead Agencies	Estimated Cost	Sources of Funding	Timeline/Projected Completion Date (a)
Action M3.1 —Where appropriate, support retrofitting, purchase, or relocation of structures in hazard-prone areas to prevent future structure damage. Give priority to properties with exposure to repetitive losses.								
Status Description:								
O		Ongoing	All	7, 13	Village of Maywood	High	FEMA Hazard Mitigation Grants	Long-term (depending on funding)
Action M3.2 —Continue to support the countywide actions identified in this plan.								
Status Description:								
O		Ongoing	All	Village of Maywood	Village of Maywood	Low	General Fund	Short-and long-term
Action M3.3 —Actively participate in the plan maintenance strategy identified in this plan.								
Status Description:								
O		Ongoing	All	3, 4, 6	DHSEM, Village of Maywood	Low	General Fund	Short-term
Action M3.4 —Consider participation in incentive-based programs such as the Community Rating System, Tree City, and StormReady.								
Status Description:								
O		Ongoing	All	3, 4, 5, 6, 7, 9, 10, 11, 13	Village of Maywood	Low	General Fund	Long-term
Action M3.5 —Maintain good standing under the National Flood Insurance Program by implementing programs that meet or exceed the minimum NFIP requirements. Such programs include enforcing an adopted flood damage prevention ordinance, participating in floodplain mapping updates, and providing public assistance and information on floodplain requirements and impacts.								
Status Description:								
O		Ongoing	Flooding	4, 6, 9	Village of Maywood	Low	General Fund	Short-term and ongoing
Action M3.6 —Where feasible, implement a program to record high water marks following high-water events.								
Status Description:								
C	-	Completed	Flooding, Severe Weather	3, 6, 9	Village of Maywood	Medium	General Fund; FEMA Grant Funds (Public Assistance)	Completed
Action M3.7 —Integrate the hazard mitigation plan into other plans, programs, or resources that dictate land use or redevelopment.								
Status Description:								
O		Ongoing	All	3, 4, 6, 10, 13	Village of Maywood	Low	General Fund	Short-term
Action M3.8 —Consider the development and implementation of a Capital Improvements Program (CIP) to increase the Village's regulatory, financial and technical capability to implement mitigation actions.								
Status Description:								
O		Ongoing	All	1, 2, 7	Public Works	High	CIP component of general fund (if implemented)	Long-term
Action M3.9 —Installation of green allies to help with flooding. Install new garage doors to help with emergency service participation during power outages; and integrating installing sewer for Village Hall								
Status Description:								
N		New	Flood, Widespread Power Outage, Secondary Impacts from Mass Influx of Evacuees	2, 3, 12, 13	TBD	TBD	Madison TiF, general fund, CDBG funds	>2018; 2019
Action M3.10 —Install First Avenue from Roosevelt Road to Cermak Road Flood Control								
Status Description:								
N		New	Flood	2, 3, 12, 13	MWRD	\$652,000; High	MWRD	TBD
Action M3.11 —Launch Green Infrastructure Project								
Status Description:								

N		New	Flood	2, 3 ,12, 13	MWRD	TBD	MWRD	TBD
(a) Ongoing indicates continuation of an action that is already in place. Short-term indicates implementation within five years. Long-term indicates implementation after five years.								

Mitigation Success Stories: Examples of mitigation success stories include, but are not limited to: received a Grant, completed a major mitigation project, etc.

Future Needs: Examples of future needs include, but are not limited to: receiving training to better understand the mitigation grant application process, studies that may be needed to better understand hazards/risks, etc.
